

COE WebTeam Update

(PAO Process and Secure Site)

Ron Cannon

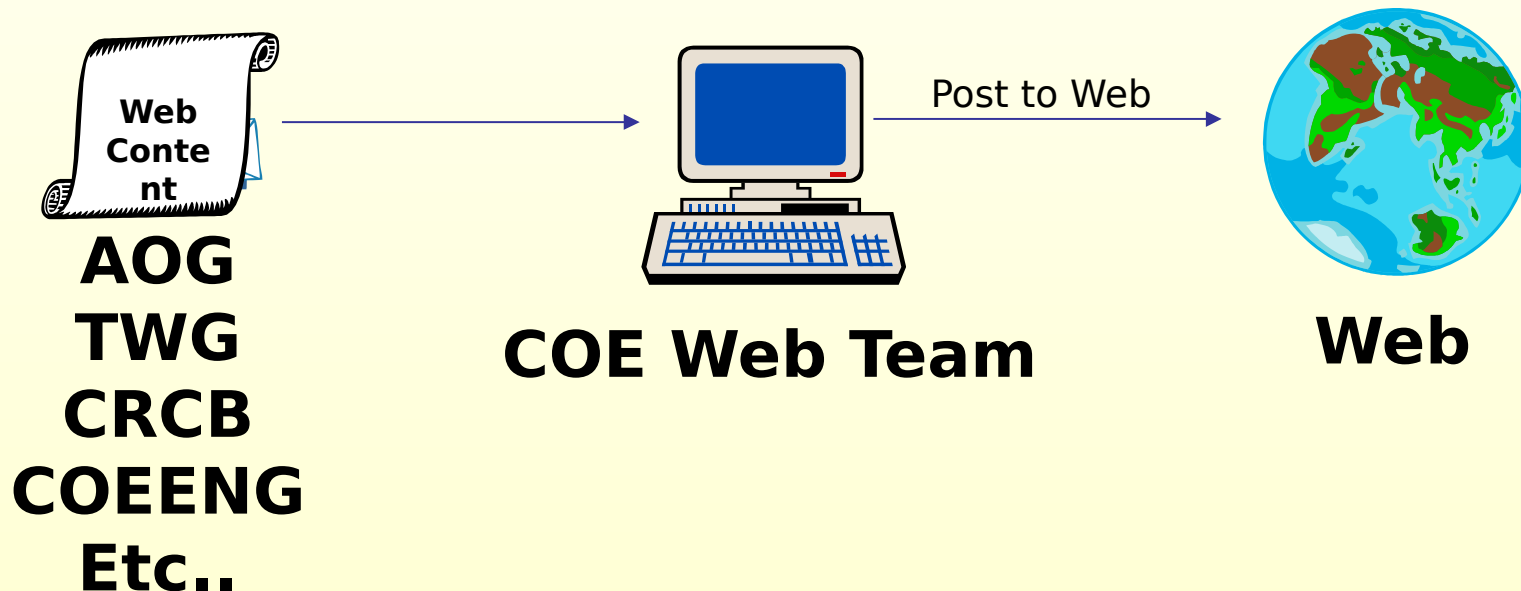

COE WebTeam

5 October 2001

Customer Expectations

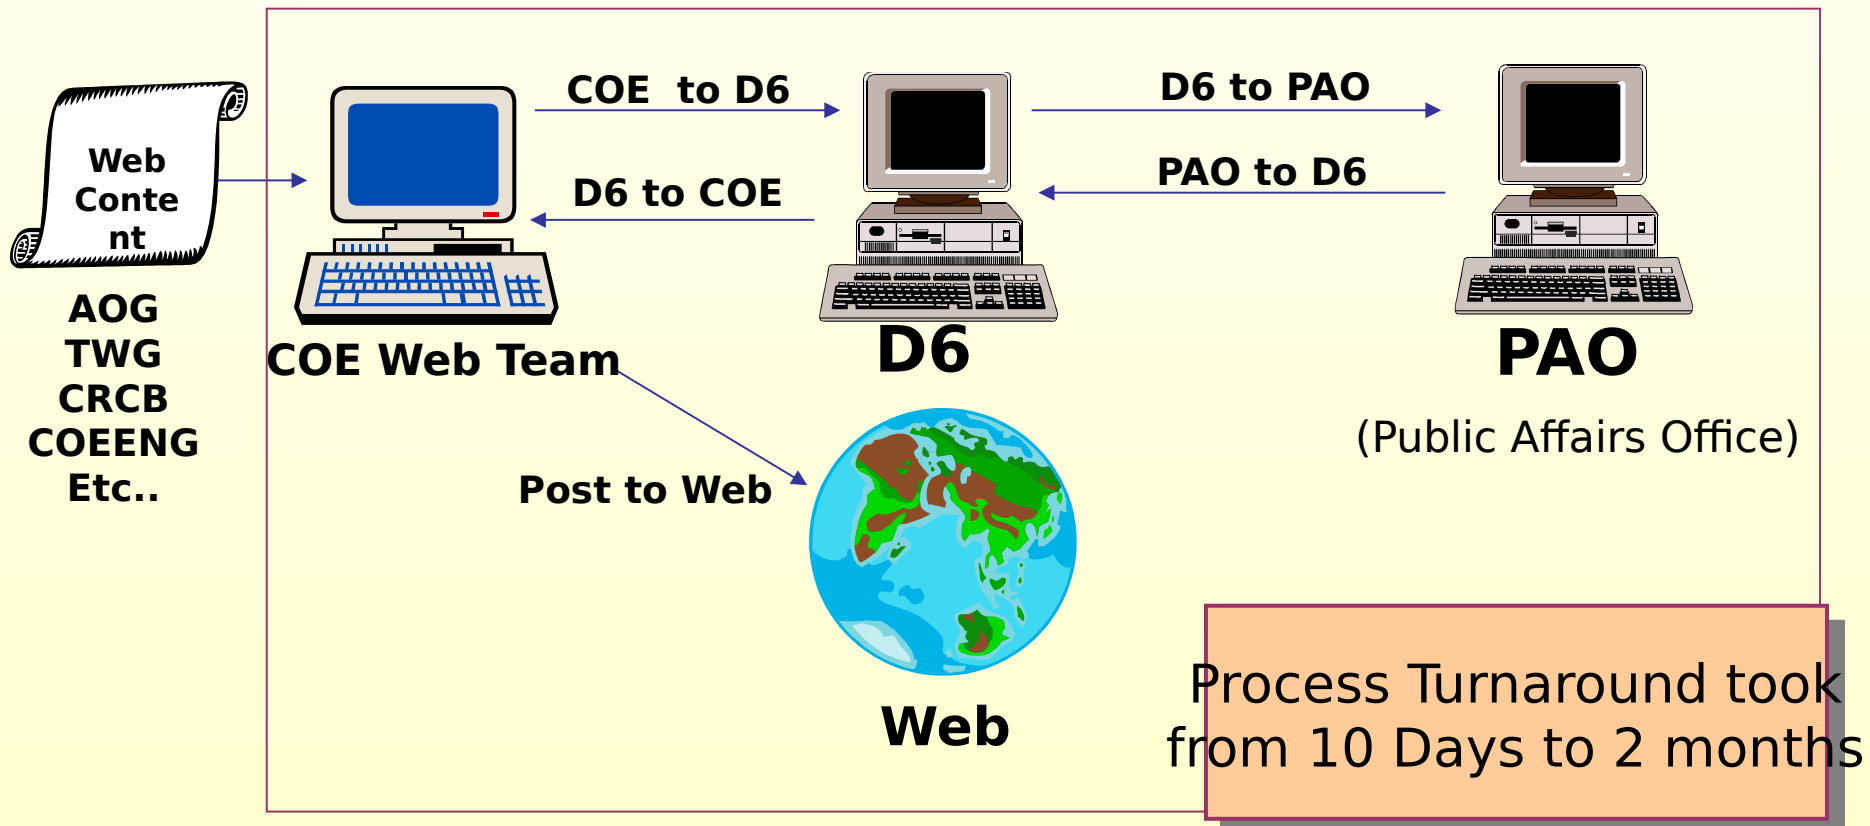

COE customers require quick posting of material

DISA Policy

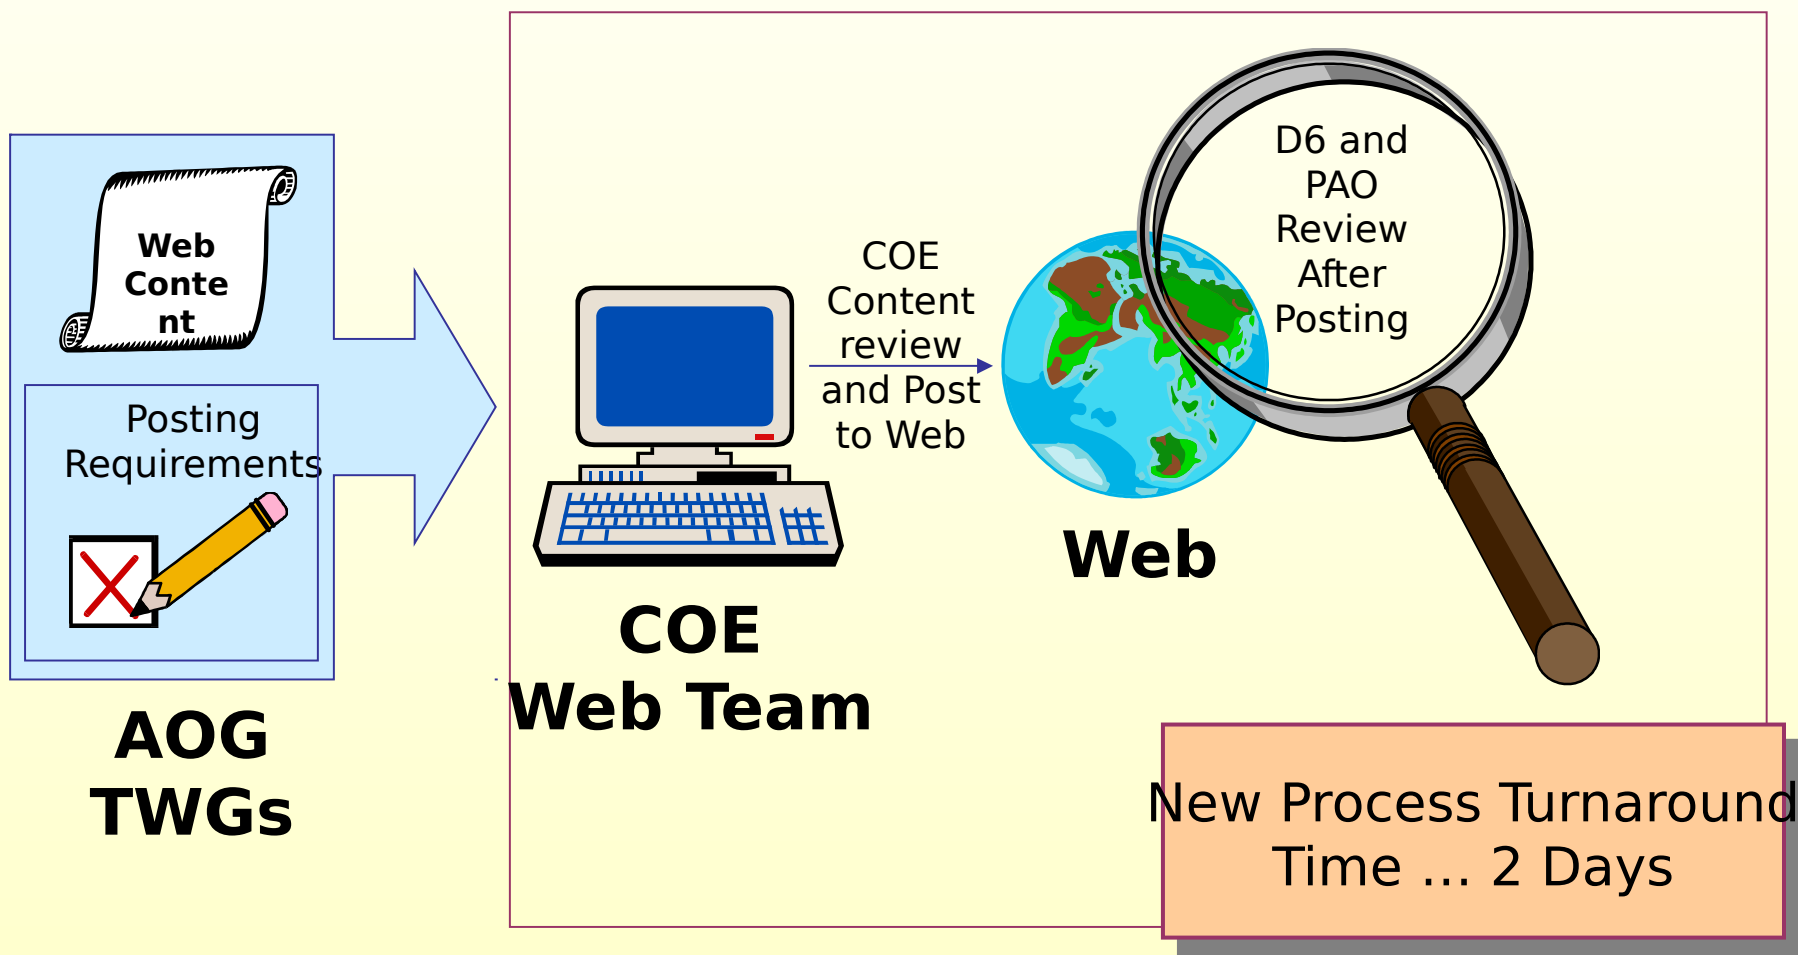

DISA requires that all postings must be approved by the D6 content manager and PAO

New Process!

CC Web Team now have the authority for direct web posting in support of the CRCB, AOG, & TWGs!

How Can You Help?

Please review your material before forwarding it to u

Review check list in handout

Backup
Chart

☐ **Please have the author label their material**

☐ **Please ask authors to include their POC information on material for posting.**

☐ **Consider Size - is it too Big?**

☐ **Consider age - is it too old?**

☐ **Transfer all COE TWG web pages and data to the official web site**

SRS/Document Discussion

We have been asked to:

- ✓ **Display only one version** (most current)
- ✓ **Not to post a document over 2 years old**
(SRS's must be reviewed and validated by the TWG Chair prior to posting)
- ✓ **Please Submit your newest version**

FY01 COE Sites

COE Public

Worldwide read access
No Write Access
85K Page Hits (April)
56K Avg Page Hits

COE NewsGroups

Worldwide read access
Limited Write Access
1,100 write users (30% increase)

COE IAVA

Backup Charts

New Process Posting Requirements

What are the main items we will be reviewing for:

- ☐ Procurement information (is it releasable?)
- ☐ IP addresses
- ☐ URLs (are they public or secured?)
- ☐ SSN numbers
- ☐ Home phone numbers
- ☐ Profanity
- ☐ Editorial comments that could be construed as official DOD positions
- ☐ Maps to DoD complexes
- ☐ Promising DISA action (speaking for the director)
- ☐ New program names (are they cleared for release?)
- ☐ Sample code (Is it an example or does it release a program specific problem)
- ☐ Message formats (are they releasable?)
- ☐ Bug reports (is the system in question fielded -- don't release vulnerability -- or in development. system level fielding or upgrade plans (i.e. radar upgrade, firewall deployment, recon system capabilities, etc. -- don't release even if))

The COE Webmaster is held personally responsible for the content
